

**PROTECT YOUR INVESTMENT** with an Affordable Scheduled Maintenance Plan

*Regular scheduled maintenance can increase the life of your pressure washer, prevent costly downtime, and increase production by keeping your equipment running at its best.*

**Our 26 Point Service Inspection keeps your equipment running at its best.** You benefit from *increased productivity, less downtime*, and proper maintenance. Our technician will perform a complete oil change, replace filters, spark plugs, and coupler o-rings as needed as well as *12 function tests (i.e. pressure, temperature) and 12 visual checks*. When finished you will be provided with an inspection record, to inform you of any additional work needed.

Your Northwest dealer for **Hotsy**  
Pressure Washers

- Ensure top performance and production
- Safety Checks protect your equipment and employees
- Alerts you of needed repairs to reduce or eliminate downtime
- Correct small problems before they become big ones

You are in control... you can choose to schedule needed repairs, or tie them in with your maintenance visits to save money on repair calls. You can cancel the agreement any time without penalty.

Plans can be set up for portable or stationary machines, and are performed at your location. Choose monthly, quarterly, bi-annually or yearly plans depending on your use.

**Protect your machines starting at only \$139.00 + parts**  
**Discounts for multiple units!**
