WASH AND SHINE

DESCRIPTION

This product is a high foaming boat and vehicle wash. Contains a high level of wetting agents and Detergents that allow it to penetrate dirt and road film quickly. It also contains a high level of water softeners to prevent spotting. Almond scented!

DIRECTIONS:

THROUGH PRESSURE WASHER: Use 1 ounce of product per gallon.

IN AUTOMATIC CAR WASHES: Use 2 parts product to 50 parts water in pre-mix tank-DEMA to soap arch or add directly to reclaim pit until desired foam level is achieved.

FOR HAND WASHING: Use 2 ounces of product per 4 gallons of water. Using a mitt or brush on surface and rinse thoroughly.
