

PRODUCT DETAILS

Vandal contains a naturally biodegradable soy-based solvent. No D-limonene or petroleum solvents. It is a concentrated non-toxic industrial degreaser designed to remove graffiti and adhesives from non-porous surfaces. This non-flammable formulation quickly cuts through paints and adhesives allowing you an easy water clean up. Vandal can also be used to remove tar and asphalt from tools and equipment of all types.

DIRECTIONS FOR USE

For best results, first remove as much accumulated soils as possible with a putty knife or scraper. Then Vandal should be applied undiluted from a spray bottle or garden sprayer. Allow the product to dwell on the surface, agitate with stiff bristle brush or scrubber and rinse with water. Reapply as necessary for heavier accumulations. A thorough fresh water rinse is required to prevent Vandal from softening rubber or plastic surfaces.
