PRESSURE WASHERS / SINCE 1970

HOT WATER

ELECTRIC

The 9400 Series heater modules gives the flexibility to “convert” a cold water pressure washer into a hot water unit. By attaching the heater module to a cold water pressure washer, the pressurized water is now heated to produce all the benefits of hot water cleaning. The four models use fuel oil, diesel or natural gas to heat the water using Hotsy's high-efficiency, vertical heating coil.

We recommend using the Hotsy 1700 Series stationary cold-water pressure washers.

All models operate on 115 V and are ETL safety certified. Gas-fired models feature electronic ignition. They are designed to attach to cold water pressure washers with cleaning power of 6 to 10 GPM and up to 3200 PSI.

OPTIONS FOR 9400 SERIES

10" Natural Gas-Fired Draft Diverter
12" Natural Gas-Fired Draft Diverter
10" Power Dampener
12" Power Dampener

Natural-Gas to LP Conversion
for Model 9452
Natural-Gas to LP Conversion
for Model 9462

MODEL	PART NO.	PSI (MAX)	GPM (MAX)	GPM (MIN)	VOLT/PH	BTU/HOUR	AMP	FUEL	DIM (LXWXH)	SHIP WT (LBS)
9450	1.103-905.0	3200	10	6	115/1	550,872	8	Oil-Fired	32.5"x25"x50.5"	525
9452	1.103-906.0	3200	10	6	115/1	540,000	1	Natural-Gas-Fired	32.5"x25"x50.5"	500
9460	1.103-907.0	3200	10	6	115/1	720,603	8	Oil-Fired	40.5"x32"x65"	920
9462	1.103-908.0	3200	10	6	115/1	950,000	1	Natural-Gas-Fired	40.5"x32"x65"	935

NOTE: We are constantly improving and updating our products. Consequently, pictures, features & specifications in this brochure may differ slightly from current models. Flow rates & pressure ratings may vary due to variances allowed by manufacturers of our machine components. We meet the CETA testing specs for machine performance at +10% and in some cases are tighter within +5% of listed specifications.

Specifications & product descriptions subject to change without notice. Hotsy's manufacturing facilities have established and apply a quality and environmental management system to be ISO 9001:2008 and ISO 14001:2001 certified.
